

# Physics-Informed Neural Networks

*How can physical laws guide a neural network's approximation?*

---

## 01 Problem and governing equations

Content, figures, and references will be added here.

---

## 02 Model and loss design

Content, figures, and references will be added here.

---

## 03 Experiments and evaluation

Content, figures, and references will be added here.

---

## 04 Limitations and next questions

Content, figures, and references will be added here.
